(2) Professor Hurst was on Sabbatical leave and couldn't attend the Sherry Party.

(3) All Executive members are willing to train first years to their positions.

(4) Next meeting there will be two committee positions available for election and one Bulletin Standing Committee position.

Item 8: Next Meeting

The next meeting will be on the 7th of April at 6:30pm. The meeting closed at 8:34pm.

SHERRY PARTY '86

by J. Gum

The Sherry party was held on the 4th of February this year. Unfortunately the invites went out a little too late (2 weeks before) and many people couldn't turn up as they were already committed.

We did however, have a great turnout from the geologists and a smattering from all the other departments.

The weather was not all that warm. More pleasantly sunny. The wine and soft drinks started rapidly disappearing and soon the staff and students became much more talkative. I noticed that topics of discussion varied from the unsuitability of certain student councillors for pre-enrolment talks to the amount of oxygen present in pre-Cambria times.

I think the interests of interfaculty and staff/student relations were enhanced as no major scuffles broke out and everyone left quite content and not a little under-the-weather.

One piece of advice to next years convenors if they happen to be in the audience. The Sherry Party is one of the easiest functions the Science Association runs - if YOU HAVE A BOTTLE OPENER.

NOTES ON PRE-ENROLLMENT TALKS

I would just like to take this opportunity to make a few notes about this year's science seminars.

The booking of the Little Cinema must be done in early October to set the Cinema for the first 2 days of preliminary lectures. Also, the advertisement (attached) for the new students guide must be in by October or earlier, nothing need be changed except for the dates.

A word of warning about the speakers:

NORM GREET: Norm tends to be rather coarse with his language and casually talks about sex, etc. and due to the fact that there are parents in the audience, it might be advisable not to ask him or, if you do, ask him to curb his language. The only problem with not asking him is that he might be offended.

MYLES KIRBY: As dry as the proverbial dust storm and totally boring. If he speaks get him to speak first, unfortunately too, he might also get offended if not invited.

DR. CASSE: A MUST ! He was excellent this year and will be in future years.

DR. CLAY: Also very good, I recommend both these lecturers, but you may find your own.

Good luck,

JOHN WARBURTON
