

Spaced Presidents Report for 2010 year

2010 was an excellent year for SPACED. We finally started to pick up from a couple of years of hibernation. Holding more movie nights and even a BBQ that went swimmingly. We got involved in the various stall and activities that the university put on and had an influx of students who are passionate about helping to get SPACED and science big at adelaide again. All of these encouraging things make Me extremely positive about what we can do in 2011!

Christine Thompson

Treasurer's Report for 2010

We haven't accessed the bank account in the last year, because the signatories have left the club. As such, we have no idea how much money is left in there. Our assets consist of several old Science Week t-shirts, which we have been giving away, and a number of undocumented ex-AuScA items in the filing cabinet.

Hi Janet.

Here is the paperwork form the SPACED AGM held two weeks ago.

Our treasurers report is as follows:

We haven't accessed our bank account in the last year, because the signatories have left the club. As such, we have no idea how much money is in there. Our assets consist of several old Science Week t-shirts, which we have been giving away, and a number of undocumented ex-AuScA items in the filing cabinet.

Ian Shaw
